Summary

Motivated B.Tech Computer Science student with a passion for scalable, user-centric applications. Skilled in software design, development, and problem-solving, with expertise in Java, C++, OOP, and algorithms. Eager to contribute to impactful real-world projects.

Skills

- C/C++
- Python
- CSS
- Java
- HTML
- JavaScript

Experience

GDSC Technical Member

October 2023 - Present

Collaborated on technical projects and contributed to community learning initiatives.

Projects

Contact Management System

Built a robust contact management system in C++ using Object-Oriented Programming (OOP) principles. Features include adding, editing, deleting, and searching for contacts efficiently. Implemented file handling for data persistence.

Technologies Used: C++, OOP, File Handling

ATM System

Designed and developed a fully functional ATM system using Java with a graphical user interface (GUI). Features include user authentication, balance inquiry, cash withdrawal, deposit, and transaction history. Ensured a smooth and intuitive user experience with an interactive interface.

Technologies Used: Java, Swing, OOP
